Donation of Astro Gemstones to appease Planets

There is an understanding & adopted rule known as “Anikul & Pratikul” where in one should wear a gemstone for the positive planets & donate gemstones to appease negative planets with a few exceptions. So if an individual wishes to reduce the negative effects of its planets he could adopt the method of donation of specific gemstones, this could provide him quite a bit of relief.

If any of your below planets are negative you could donate its specific gemstones as mentioned below to any individual who needs it the most & could lead a better life with it. One could also donate it to trust worthy astrologers or temple asking them to donate it to the right people. While donating the stone you could chant the specific mantra of the planet & pray for your well being. However it is not necessary because the action (deed) itself is big enough.
